FTN6304/FTN6595

- (EN) Mini Lapel Microphone Kit
- (DE) Mini-Reversmikrofon-Kombination
- (FR) Mini-kit micro cravate
- (ES) Kit de Micrófono de Solapa Reducido
- (IT) Kit minimicrofono a bavero
- (NL) Minireversmicrofoonset
- (RU) Комплект миниатюрного петличного микрофона

DESCRIPTION

The Mini Lapel Microphone Kit can be used when the operator would like to conceal two-way radio usage from others.

The kit consists of a Surveillance Earpiece with a Push-to Talk (PTT) switch and a lapel microphone. These surveillance accessories are also used in quiet environments to prevent others from hearing radio transmission.

Wearing the FTN6304/FTN6595

The Mini Lapel Microphone Kit can easily be concealed. There are 3 cords; one for the earpiece, one for the microphone and one for the Push-To-Talk (PTT) switch.

The cords are long enough to place underneath a shirt, jacket, or other clothing. The microphone operates with a Push-To-Talk (PTT) switch that is small enough to fit into the palm of a hand and is easily concealed by closing the hand. The microphone has a clip to secure it to clothing; the collar of a shirt or jacket for example.

Operation

1. Always switch the **radio OFF** before connecting the Mini Lapel Microphone Kit.
2. Plug the accessory connector into the accessory jack on the side of the radio.
3. **FTN6595 only** - secure the connector with the captive screw
4. Switch the **radio ON** - care should be taken not to set the volume level too loud.

Note: Once the kit has been installed the **radio microphone** and the **radio speaker** will be disabled. The user must use the lapel microphone and the surveillance earpiece to transmit and listen to incoming calls.

5. Press the surveillance Push-To-Talk button (PTT) and speak into the lapel microphone to check that the two-way communication is working, the **red radio light (LED)** will be illuminated.
6. Always switch the **radio OFF** before disconnecting the kit.
7. **FTN6595 only** - release the captive screw before removing the accessory connector.

SERVICE

The replacement parts and alternate configurations shown in Table 1 are available for the Mini Lapel Microphone kits. Please contact your local Motorola Representative or Dealer for details.

English

Table 1 Replacement Parts

Part Description	Part number
EARLOOP, Plastic, black	5080370E92
